

CSC Regulatory Solutions Suite

Overview

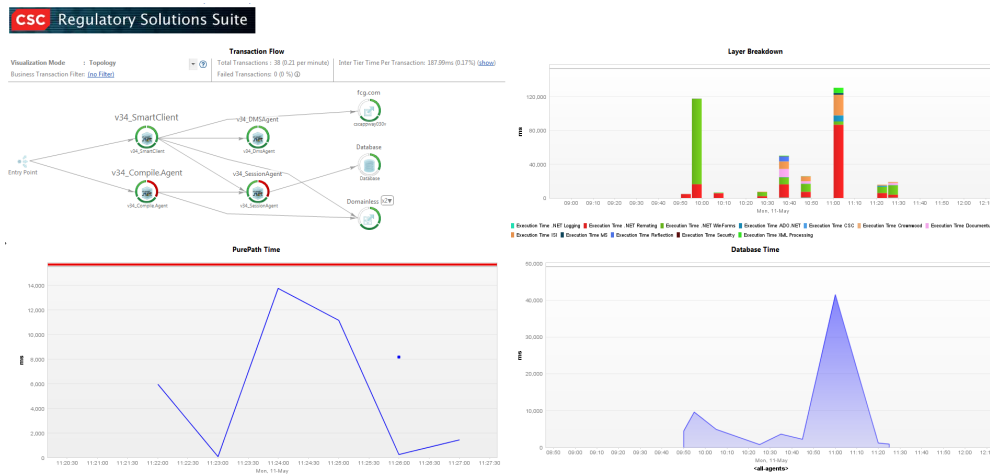

The dynaTrace FastPack for CSC Regulatory Solutions Suite enables easy out-of-the-box deployment of the RSS application on Dynatrace 6.1 and above.

This Dynatrace Fastpack for CSC Regulatory Solutions Suite (RSS), used by many CSC Clients in the Pharmaceuticals Sector, enables the rapid deployment of the RSS application on your Dynatrace Deployment.

The CSC RSS Fastpack includes a Dynatrace Profile, Custom Sensors, and Dashboards for the CSC RSS application.

The RSS Profile includes coverage for RSS Smartclient, DMSagent, SessionAgent, CompileAgent, CompileLeafAgent, RenderAgent, and PublishAgent.

CSC_RSS Dashboard

This dashboard provides a high level overview of transaction flow and key overtime graphs of response time, database time, and API Layer Breakdown

FastPack Information

The dynaTrace FastPack for CSC Regulatory Solution Suite contains everything to get started with .

- A system profile with preconfigured sensors
- A set of dashboards
- custom measures

Installation

1. Save the attached file locally to the computer where the Dynatrace Client is installed.
2. Go to Tools > Manage Plugins -> Install Plugins
3. Open the CSC RSS Dashboard and the RSS Health Dashboard changing the Source to your Dynatrace Server
4. Edit the CSS_RSS Profile to ensure the Agent Mapping matches your RSS Installed Agents.
