

# Default values for Connections Per Host and Simultaneous HTTP requests

## Information:

Environment
<ul style="list-style-type: none"><li>Dynatrace Recorder</li></ul>
Symptoms
What are the default values for <b>Concurrent connections per host (max)</b> and Simultaneous HTTP requests (max) in the script profile?
Solution
<p>A Desktop Browser profile does not have default values for these settings.</p> <p>For a Mobile Device profile, the default values are:</p> <ul style="list-style-type: none"><li>Concurrent connections per host (max) – 6</li><li>Simultaneous HTTP requests (max) – 18</li></ul> <p>You can configure these settings in <a href="#">Global preferences</a>, <a href="#">custom profiles</a>, and individual <a href="#">script settings</a>.</p>
