

Community Contribution - New version of BizTalk FastPack (v. 4.0.0)

Thanks to Rick Boyd we have a new version of the [BizTalk FastPack](#) with following new features:

Reduced overhead from sensor instrumentation, updated measure names to be more meaningful, and included monitor plugin in the fixpack itself

If you have any questions, please leave a comment in our [Plugins and Extension Forum](#).

Have you implemented your own monitoring, alert or task plugin, or do you have a default System Profile or Dashboard that you always use for your projects? If you think that others would benefit from it as well and want to share it, just contact us at community@dynatrace.com!
