

Community Contribution - Telegram Plugin

Thanks to Fernando Lewandowski Albuquerque we now have a [Telegram Plugin](#) to integrate the incidents of Dynatrace AppMon with Telegram.

If you have any questions, please leave a comment in our [App Mon & UEM Plugins Forum](#).

Have you implemented your own monitoring, alert or task plugin, or do you have a default System Profile or Dashboard that you always use for your projects? If you think that others would benefit from it as well and want to share it, just contact us at community@dynatrace.com!
