

Why there is no option for a Single URL Mobile test

Information:

Environment
<ul style="list-style-type: none">• Synthetic Classic Portal• Synthetic Mobile
Symptoms
When provisioning a Synthetic Mobile test in the Synthetic Classic Portal, there is no Single URL option.
Solution
<p>By definition, all Mobile tests are Transaction test-types. All Mobile tests must use scripts uploaded from the Windows Recorder or transactions recorded by the Web Recorder. Therefore, there is no option for a Single URL test-type for Mobile.</p> <p>We apologize for any confusion.</p>
