

Dynatrace 6.2.3 released!

The third update for Dynatrace 6.2 is now available on our [download page](#). You can update from 6.2.0, 6.2.1 and 6.2.2 to 6.2.3 by downloading and installing the update bundle or following the instructions in your Dynatrace client. A migration is not necessary for product updates.

A detailed description of the new features and fixes in Dynatrace 6.2.3 can be found [here](#)
