

Whats Awesome in Dynatrace 6.2 Webinar on June 23

Dynatrace 6.2 is a **game changer** in many ways:

- APM for Everyone and Faster Than Ever with Dynatrace Web Dashboards powered by PureLytics, PurePath and PureStackv2
- Confident Delivery with Automated Deployments, Regression Detection and Fact-based Feedback Loops along your Build Pipeline
- Extend your view with new support for External API Service Calls
- Monitor more Agents with less Dynatrace Hardware
- and many more ...

Please register for the Whats Awesome in 6.2 webinar and take the chance for Open Q&A after the main presentation

- June 23rd, 5PM CEST (Berlin): <https://attendee.gotowebinar.com/register/212213807324999682>
- June 23rd, 11AM ET (New York), 8AM PT (SFO): <https://attendee.gotowebinar.com/register/212213807324999682>

In case you can't make it don't worry. We record these webinars and make them available on APM University on the [Dynatrace Recorded Webinar Course](#).
