

How to pull agent/node list from REST API for an account

Background:

There was a bug identified with the V3.2 info call for agents thus has been disabled. And V3.3 has been released for it.

Resolution:

To pull agent list with info call, please use below V 3.3 call.

<https://ultraapi-prod.dynatrace.com/v3.3/synthetic/info?list=agents&login=username&pass=hashedpassword>

Note:

info call with other lists are still working. ***This only impacts the "info?list=agents" call.***
