

What Mobile Location name indicates

Environment
<ul style="list-style-type: none">• Synthetic Classic Portal• Synthetic Mobile

In a Mobile Location name:

- **Baseline** indicates the test will run over the Ethernet. Select this option to view the effect of mobile carriers on the test.
- **4G** indicates the test will run on the 4G network.
- **SMS** indicates the location supports SMS.

The screenshot shows a web interface titled "Measurement Locations" with four tabs: "Backbone", "Last Mile", "Mobile", and "Private Last Mile". The "Mobile" tab is selected. Below the tabs is a table with the following columns: Name, Country, City, Carrier, Speed, and Global / Custom. The table contains 15 rows of data representing various test configurations.

Name	Country	City	Carrier	Speed	Global / Custom
US - Boston - Baseline - V12	ALL				Global
US - Boston - Verizon - V12	ALL				Global
US - Boston - Verizon - V12 - 4G	United States	Boston	Verizon	4G	Global
US - Detroit - ATT - 4G	UNITED STATES	Detroit	ATT	4G	Global
US - Detroit - ATT - 4G - Android	United States	Detroit	ATT	4G	Global
US - Detroit - ATT - 4G - SMS	United States	Detroit	ATT	4G	Global
US - Detroit - ATT - 4G - IOS	United States	Detroit	ATT	4G	Global
US - Detroit - Baseline	United States	Detroit	Baseline	Baseline	Global
US - Detroit - Baseline	United States	Detroit	Baseline	Baseline	Global
US - Detroit - Baseline - 4G	UNITED STATES	Detroit	Baseline	Baseline	Global
US - Detroit - Baseline - 4G - Android	United States	Detroit	Baseline	Baseline	Global
US - Detroit - Baseline - 4G - IOS	United States	Detroit	Baseline	Baseline	Global
US - Detroit - Sprint - 4G	UNITED STATES	Detroit	Sprint	4G	Global
