

Accessing the Public Benchmark data

Information:

Environment
<ul style="list-style-type: none">• Dynatrace Benchmarks

Solution
<p>Dynatrace Industry Benchmarks enable you to compare your web application performance with industry leaders and competitors. Using key benchmarking metrics, we measure a business process across organizations within the same industry. This approach provides you with an unbiased view of the state of your website, so that you can tune performance, enhance relationships with your customers, and open doors for new opportunities.</p> <p>Benchmark data is available in the Dynatrace website at http://www.dynatrace.com/en/benchmarks/view-benchmarks.html. You can select the industry and country that matches your market, and view data for different test types and browsers.</p> <p>Our benchmarking methodology is described here: http://www.dynatrace.com/content/dam/en/general/benchmark_methodology.pdf</p>
