

# Blogs about Automatic Problem Detection, mobile friendliness and Oracle Performance

In the last weeks some great blogs have been written. Check it out:

- Klaus Enzenhofer writes about [Using heat maps to obtain actionable application-user insights](#)
- Andreas Grabner shows how [Automatic Problem Detection with Dynatrace works](#)
- Read [When mobile friendliness defeats mobile performance!](#) by Klaus Enzenhofer
- Sonja Chevre writes about [Using Bind Variables to Improve Oracle Database Performance](#)
- Christian Schram shows how to save money in [DB2 Single-row FETCH still wasting big money on Mainframe](#)
- and much more on <http://blog.dynatrace.com>

Got your own blogs? [Let us know](#) and we help you get your story out to the larger APM Community.

Now enjoy reading!
