

# Default User Agent String in Dynatrace Recorder

## Information:

Environment
Gomez Recorder / Backbone nodes Fall Release 2011 <ul style="list-style-type: none"><li>Gomez Recorder</li></ul>
Symptoms
Solution
<p>As of the March 2016 release, the following are the default user agent strings in the Dynatrace Recorder.</p> <ul style="list-style-type: none"><li><b>Firefox 24</b> – Mozilla/5.0 (Windows NT 6.3; WOW64; rv:24.0; GomezAgent 3.0) Gecko/20100101 Firefox/24.0</li><li><b>IE 11</b> – Mozilla/5.0 (Windows NT 6.3; Trident/7.0; rv:11.0; GomezAgent 3.0) like Gecko</li><li><b>Chrome 34</b> – Mozilla/5.0 (Windows NT 6.3; WOW64; GomezAgent 3.0) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/34.0.1916.153 Safari/537.36</li></ul> <p>If you create Single URL test in the Dynatrace Portal, it uses the Playback Agent Default.</p> <p>You can change the header by opening the test in the Dynatrace Recorder and selecting the User Agent in the <b>Headers</b> tab of the script profile. For details, see <a href="#">Modifying script settings</a> in the documentation.</p>
