

How to email a Saved Chart in CSV or Excel format

Information:

Environment
<ul style="list-style-type: none">Dynatrace Portal: http://portal.dynatrace.com

Solution

Saved Chart data can be emailed in Excel (XLS) or Comma-Separated Value (CSV) format through the Dynatrace Portal.

1. Display the Interactive Chart. For details, see [Interactive Charts](#) in the documentation.
2. Edit the chart settings as needed: time range, filters, metric, chart type, etc.
3. At the top right corner above the chart, select **Action > Email** to display the Send Interactive Chart window.

Send Interactive chart [X]

Required Field *

Chart Name
Interactive Chart
