

Cloud Plugins

Want to extend monitoring to your systems running on Amazon EC2, Azure or other cloud providers? Download the available plugins and extend your Dynatrace Platform

Don't find a plugin or got a general question on this topic?

Please use the [App Mon & UEM Open Q&A Forum](#) to ask for new plugins that would make your life easier but that are not yet available. If you have plugins to share us the forum to see if somebody else would benefit as well.

Docker Monitor Plugin

Retrieves CPU, memory and network stats from Docker containers via the Docker Remote API

Amazon AWS Fastpack

The Dynatrace AppMon FastPack for Amazon AWS enables easy out-of-the-box monitoring of various AWS services. The Fastpack consists of a customer Monitor, several Dashboards and a System Profile.

Amazon EC2 Account Cost Monitoring FastPack

The Dynatrace AppMon FastPack for Amazon EC2 Account Cost Monitoring monitors EC2 instances and Amazon AWS Account. It provides a monitor which retrieves measures for the number of instances/format estimations. The FastPack consists of a custom Monitor, a sample System Profile, and a dashboard.
