Recent Webinars

Mobile real-user and performance monitoring for iOS and Android with Dynatrace	Learn how to implement Dynatrace RUM for native mobile applications, what is available out of the box, and how to integrate performance management into your application build process.	May 10, 2018	Recording
101 Jenkins with Dynatrace: Shift-Left and Shift-Right Basics	Learn the basic integration options between Jenkins and Dynatrace: push build information to Dynatrace, pull problem details from Dynatrace to Jenkins, pull performance metrics from Dynatrace.	April 18, 2018	Recording
Converting from AppMon to Dynatrace with confidence	Learn the process and experiences gathered at accounts around the world	March 27, 2018	Recording
Managing Microservices at Massive Scale with Dynatrace	Learn automatic tagging of entities leveraging orchestration engines like Kubernetes, Management Zones, and the additional configurations that can take advantage of the customizations useful for organizations leveraging Dynatrace in a microservice environment	March 22, 2018	Recording

Java problem identification and auto-remediation with Dynatrace	Explore how Dynatrace can automatically identify when a problem occurs and what is the root cause, and automatically mitigate the issue so your customers can continue to utilize your services	March 20, 2018	Recording
AI-powered dashboarding with Dynatrace	Learn the new dashboard layouting and charting capabilities	March 15, 2018	Recording
Diagnosing and Boosting Java Application Performance with Dynatrace	Learn how to expand your performance bottleneck search arsenal beyond PurePath using the power of Dynatrace and AppMon	February 22, 2018	Recording
Unlock Your Users Digital Experience with Dynatrace RUM	Learn how to use Dynatrace RUM to better understand how issues are impacting your end users	February 15, 2018	Recording
Building an unbreakable delivery pipeline	Build a continuous delivery pipeline with automated AI-driven quality gates from CI through CD all the way into production	February 8, 2018	Recording
Process Group Detection and Management with Dynatrace	Learn the concepts of Process Groups, how to define custom Process Group Detection Rules, and get familiar with the best practices based on large Dynatrace installations.	January 18, 2018	Recording
101 tagging essentials with Dynatrace	Learn more about the concepts of tags in Dynatrace	January 4, 2018	Recording
AppMon 2018 February: Cross-product integration with Dynatrace	Get a technical deep dive into how the integration works and how AppMon customers can leverage both AppMon and Dynatrace	December 19, 2017	Recording
Dynatrace: Basic diagnostics steps	Learn where to start your "Diagnostics Journey" within the Dynatrace Web Interface, how to leverage the Dynatrace OneAgent data and how to find the best spots to optimize your application and service performance	December 12, 2017	Recording
AppMon 2018 February: Intro to the EAP	We invite you to participate in the Early Access Program for AppMon 2018 February!	December 4, 2017	Recording
Using Service Activity Changes to understand your environment	See how to leverage Service Activity Changes and DNS explorer to understand and ascertain the impact of these changes in your environment	November 29, 2017	Recording
Dynatrace on Cloud Foundry: Hands-On Tutorial	Learn how to get automated full stack visibility into the Cloud Foundry environment	November 22, 2017	See Dynatrace Fullstack Tutorials channel
Business transactions with Dynatrace	Learn best practices on using request attributes to tag PurePaths or define naming rules for web requests for easier Business Transaction Analysis	November 9, 2017	Recording
What is Dynatrace and how to get started	Learn the magic behind Dynatrace, OneAgent, and the AI, and how to get started with either Dynatrace SaaS or Managed in minutes	October 31, 2017	Recording
Dynatrace & ServiceNow - Put your IT Operations on auto-pilot	Learn how to integrate the Dynatrace monitoring information into your ServiceNow ITSM and IT operations management	October 19, 2017	Recording
SSL connection setup: Why I should care about it when measuring web application performance	Learn how SSL connection setup relates to the web page load time	October 17, 2017	Recording
AI-supported Performance Testing with Dynatrace	Learn how OneAgent and the Dynatrace AI can be fully integrated into your performance testing practices	October 12, 2017	Recording
Dynatrace CLI: Hands-On integration into your DevOps toolchain	See how the Dynatrace CLI works (https://github.com/Dynatrace/dynatrace-cli) and what the most common DevOps Automation Integrations are.	September 13, 2017	Recording
What's New in AppMon 7+	Get and overview from Peter Zahrer on how AppMon 7+ is further redefining application performance monitoring.	September 6, 2017	Recording
Extending Dynatrace SaaS / Managed through plugins	Get an overview of the available plugin options for our users and a live walk-through on how to create a plugin that can pull additional measures from any of your infrastructure components	August 30, 2017	Recording
Enrich any CMDB with Dynatrace Smartscape information	Learn how Dynatrace's automatically captured Smartscape information can be integrated with any CMDB leveraging Dynatrace Expert Services and the Dynatrace API	August 24, 2017	Recording
Connecting Dynatrace AI with Atlassian's DevOps Tools	See the latest JIRA and HipChat integrations built at Atlassian Connect Week	August 18, 2017	Recording
NetFlow monitoring with DC RUM	Learn how DC RUM can consume NetFlow data and what can, and can't, be achieved using the next generation of extended NetFlow metrics	August 17, 2017	Recording Q&A page

Talking REST through the Dynatrace SaaS & Managed API	Learn how to pull data through the Dynatrace REST API	July 26, 2017	Recording
AWS Monitoring Tutorials for Dynatrace SaaS & Managed	Learn how to set up AWS Monitoring with Dynatrace SaaS	July 12, 2017	Recording
Report creation guidelines	How to create your own reports to match Dynatrace DC RUM interaction style	July 6, 2017	Recording
Explorer reports	New explorer reports introduced in DC RUM 2017 May release. How to use new explorers and drill down to them from your own reports	June 22, 2017	Recording
Dynatrace unification EAP	See what benefits the unification brings and what is in scope of the early access program.	June 19, 2017	Recording
What's new in DC RUM 2017 May release	What's New with Dynatrace DC RUM - Release Highlights	June 13, 2017	Recording
DC RUM 2017: CAS search improvements	DC RUM 2017 May release can answer your APM question!	June 5, 2017	Recording
Online DMI clinic	Learn best practices for building links and interactions within a single DMI report.	May 23, 2017	Recording to be published
Using parameters in DC RUM	Learn best practices for configuring parameters and how to use them properly.	May 18, 2017	Recording
Using custom metrics in DC RUM	Learn how to use custom metrics to extract business information and present that to the business using DC RUM.	May 4, 2017	Recording
Online DMI clinic	Tile sections in DMI reports	April 25, 2017	Recording
Configuring software services using the RUM Console wizard	Configuring parameters and analyzing the traffic can be sometimes a bit of a challenge. See the fantastic capabilities of the RUM Console wizard.	April 20, 2017	Recording
Online DMI clinic	Best practices for building interactions within a single DMI report + a live Q&A session.	April 3, 2017	Recording
What's New with Dynatrace Synthetic Monitoring	Join us for an overview of the new features and capabilities in Dynatrace Synthetic Monitoring April 2017: Big Data, Front-End Performance Optimization, Web Recorder and more ...	March 23, 2017	Recording
Online DMI clinic	All about time in DMI reports + a live Q&A session.	March 13, 2017	No recording available
Online DMI clinic	Short presentation of changes and new features in links configuration + a live Q&A session.	Feb 20, 2017	Recording
Extend your Dynatrace visibility into all enterprise apps	Learn how to resolve performance issues in enterprise apps and cloud-based services with insights from network wire data - from Citrix, SAP, and Oracle EBS to Salesforce.com , Office 365, and more.	Sep 29, 2016	
3 Tips for better Mobile Web Performance	Learn the basics of high-performance mobile development through the examination of real-world, performance-killing code examples. You'll also hear about: <ul style="list-style-type: none"> • Why 4.5 seconds on Chrome can be 15 seconds on a Galaxy S5 Chromium • How to identify major issues within mobile page construction • Best practices for managing CSS and JavaScript • Things to consider going global with your Web application 	Sep 14, 2016	
What's Awesome in Dynatrace 6.5	Join us for an overview of the new features and capabilities in Dynatrace AppMon & UEM 6.5: Web Dashboards, Database Agent Updates, Non-HTTP Based Apps, UEM-based Test Automation and more ...	Sep 14, 2016	Recording
Get visibility into enterprise apps	Extend your visibility to monitor and optimize every single transaction, even across 'black box' enterprise applications.	Sep 6, 2016	Recording Slides
AppMon and DC RUM: Better Together	Join us for this live webinar on why Data Center Real User Monitoring (DC RUM) solution should be a critical part of your APM strategy.	July 20, 2016	Slides
What's in the Dynatrace 6.5 EAP	Learn about what is in the Dynatrace 6.5 Early Access Program	July 19, 2016	Recording
What's new in Dynatrace Synthetic Monitoring	Learn about the exciting recent updates and new enhancements coming to the platform in July, including: <ul style="list-style-type: none"> • Our new web-based recorder for easy scripting • Our new retry on error capability • Our easy-to-use custom dashboarding capabilities 	July 13, 2016	Recording
What's Awesome in DC RUM 12.4	Learn how this new major DC RUM release helps managing the services-oriented IT in a heterogenous environment of the modern data center, with constant focus on the only objective Key Performance Indicator: the real end user experience.	Jan 27, 2016	Recording

What's Awesome in the Dynatrace Synthetic Monitoring Fall Platform Update	<p>The webinar key highlights include:</p> <ul style="list-style-type: none"> * The merger of Keynote and Dynatrace and what it means for you * Our new innovative service, Digital Performance Insights, which delivers ongoing performance insights * An exciting new scalable, on-demand global load testing platform that fits within your DevOps frameworks * Our upcoming early access programs of two exciting new capabilities, web-based script recording and a unified UEM and Synthetic digital cockpit * and many more bug fixes and enhancements. 	Nov 5, 2015	Recording
Discontinuing support for Browser Agents and the future of browser diagnostics!	This webinar explains the technical reasons, why we were forced to discontinue support for our native Browser Agents and what are our plans to support browser diagnostics in the future with a new JavaScript approach (UEM).	July 29, 2015	Recording
Dynatrace on Node.js	Learn how Dynatrace can be used to monitor applications developed with Node.js	July 29, 2015	
Last Mile and Private Last Mile Synthetic Monitoring augmenting the DC RUM reports	In this webinar we will present the basics of the Private Last Mile and Last Mile reporting through the DC RUM introduced in the 12.3.3 service pack introduced. We will also discuss further extensions to those capabilities, which can be expected in upcoming releases.	June 9, 2015	Recording
Test Automation with Dynatrace	Learn how to monitor your automated unit and integration tests with Dynatrace, how to analyze performance metrics from these tests, and how to integrate Dynatrace in your CI environment.	March 11, 2015	Recording
First steps with UEM	Learn more about Dynatrace User Experience Management.	Jan 21, 2015	Recording
Getting started with Android (UEM)	Learn more about performance monitoring of Android applications.	Feb 17	Recording
