

How many tests can be included in an End-to-End Report

Information:

Environment
<ul style="list-style-type: none">• Dynatrace Portal• Reports

Solution
<p>The End-to-End report provides a concise view into the performance history for each selected test. It includes:</p> <ul style="list-style-type: none">• Response Time trend chart. If the reporting time frame is Yesterday, this is an hourly trend chart. Other time frames have a daily trend chart.• Historical average Response Times for past 7, 14, and 31 days.• Response Time (average, maximum, and minimum) for the time frame selected.• Number of total Tests, broken out by success and failure, with average Availability.• Number of total Steps, broken out by success and failure, with average Availability. <p>There is no limit to the number of tests you can include in an End-to-End report. All test types are supported, including Benchmark tests.</p> <p>To view a sample End-to-End report, see Reports in the documentation. For more information, see Creating Reports.</p>
