

Dynatrace Application Monitoring (AppMon) & User Experience Management (UEM) End of Support Reminder

In November 2019, we announced the Application Monitoring (AppMon) & User Experience Management (UEM) End of Support (EoS).

We'd like to remind you that the AppMon End of Support date is now less than one year from now on **March 31, 2021**.

What do I need to do?

- Read the blog post [Its time to upgrade Appmon to Dynatrace](#), which explains why this will ease your life a lot!
- Start your [Dynatrace Free Trial to experience all features of Dynatrace](#).
- Plan your migration now so that it can be completed before March 31, 2021.

How can I keep informed about AppMon and Dynatrace?

- Subscribe to [AppMon & UEM news to receive updates regarding the end of support and upgrading to Dynatrace](#).
- To stay updated with the new [Dynatrace platform](#), subscribe now to the [Dynatrace product news!](#)

I have more questions...

- Check the AppMon & UEM [frequently asked questions page on Dynatrace Community](#).
- Contact your account representative or your CSM.
